As a passionate designer with over 4 years of experience in the digital design field, I want to work with the best. I love design and my ideal work place will allow me to push my creative boundaries. My background as a web developer gives me an edge over other designers; I understand web technologies thoroughly and I'm able to communicate efficiently between designers and developers. Most importantly, I'm passionate about making great designs and being proud of my work.

## EXPERIENCE

---

### AUG 2008 - PRESENT
